

Using ScannerPro with Your iPhone www.bridgingapps.org

- 1). Download the app, ScannerPro, from the App Store. Open the app.
- 2). Click the orange circle with a plus sign. This opens the camera function. Take a photo of the document you want to scan.

- 3). Follow prompts to line up the white lines and blue dots with the border of the document. Click save selection.
- 4). You can then repeat with additional pages. When done, click the blue rectangle with a number in it at the lower right corner. Click on the name of the document to change it. You can then type in a new name for the document. Click done. Click save.
