

Using Pocket to Save Articles

www.bridgingapps.org

- 1). Download the app Pocket from the App Store.
- 2). When you open a webpage or a file, click on the export icon (box with an arrow pointing up). Then click on the Pocket icon. You may need to scroll through the apps to find Pocket.

3). The article or webpage is then saved to your Pocket app. When you want to read the article, open the Pocket app and click on the name of the article. If you want to listen to an article, click on the three dots in the lower right corner and click Listen.
