

SOMETIMES I HAVE TO WEAR A MASK WHEN I LEAVE MY HOUSE...

<p>There is an illness called Coronavirus or COVID-19.</p>	
<p>Some people feel really sick when they have it.</p>	
<p>Others may have it and not know they have it because they feel fine.</p>	
<p>I have to wear a mask when I leave my house. It covers my nose and mouth, but I can still breathe and talk.</p>	
<p>The mask keeps me from getting germs that may be in the air from other people coughing or sneezing.</p>	
<p>I have to wear my mask until a grown-up says I can take it off.</p>
